CARE & MAINTENANCE

Our poly outdoor furniture is made from High Density Polyethylene (HDPE). HDPE is an extremely durable plastic made of recycled materials that will never need painting or staining. It will not rot or splinter and is not affected by most corrosive substances. It resists the fading effects of sunlight with an added UV inhibitor and does not promote bacterial growth.

You may find it necessary to clean your furniture to keep it looking new. Simply use a non-abrasive soap and warm water several times a year to keep it clean. White (and all lighter colors) may need to be cleaned more often than darker colors. Sometimes you may need to use a more thorough approach if soap and warm water are no longer as effective. First try scrubbing with a soft brush along with non-abrasive cleaners. You can also use a pressure washer to clean your furniture. Never

bring the tip of the pressure washer closer than 12" or it will damage the surface of the furniture.

Placing flower pots or any other items onto the furniture may leave a stain. Always use a barrier such as a pot saucer or other item to keep these materials from contacting the surface of the furniture. Do not place hot items directly onto furniture to avoid melting.

All fasteners used on furniture built by Outdoor Impressions are stainless steel. However in extreme environments, where stainless comes in contact with salt water or mist such as coastal areas, you must regularly rinse with fresh water to ensure to that your furniture will last.

With proper care, you will be able to relax in your fine piece of furniture for many years!

PRODUCT WARRANTY

FIFTEEN (15) YEAR LIMITED RESIDENTIAL WARRANTY • FIVE (5) YEAR LIMITED COMMERCIAL WARRANTY

Outdoor Impressions, LLC. (hereafter referred to as "Outdoor Impressions") warrants to the original purchaser that our poly outdoor furniture products (hereafter referred to as "product", "the product" or "this product") will be free of original defects in workmanship and materials for a period of fifteen (15) years residential / five (5) years commercial use starting with original invoice date. At our option, Outdoor Impressions will repair or replace the product in question at no charge for parts and labor, provided that an inspection by us or one of our dealers indicates that such a defect exists. If we choose to replace the aforementioned product and the product is no longer available at the time warranty service is required, a substitution of equal or greater value and similar function will be made.

This same warranty applies to all stainless steel fasteners that are originally installed in this product. Swivels are guaranteed not to fail for a period of one (1) year.

Polyethylene is a synthetic product that may scratch or show signs of wear with time and use. It may fade slightly when exposed to sunlight or show staining after contact with other substances. Some expansion and contraction is considered normal when exposed to extreme changes in temperature or humidity. The aforementioned shall not be considered defects in materials or workmanship and are not covered under this warranty.

This warranty does not cover scratching or chipping of the polyethylene materials used in this product. However, this does not limit your rights or any remedies offered by the manufacturer of the polyethylene as they may apply to you.

Stainless steel can corrode or rust in certain environments (e.g. coastal areas, salt water pools, etc.) if not properly maintained. This warranty does not cover rusting fasteners or structural failure due to rusting fasteners. It also does not cover damage caused by unauthorized service or repair, alteration of this product, abuse or misuse, normal wear and tear of materials, or any use or attempt to use the product for a purpose or in a manner than for which it is customarily intended.
